MISTRAL MDX

air-to-air heat pump system
with R32 refrigerant

Sustainable heating and cooling with the
Mark Mistral MDX 30 and 60.

**Dedicated
to people.**

Sustainable heating and cooling with the Mark MISTRAL MDX

The Mistral MDX is specially developed for energy-efficient heating and cooling of large spaces. The combination of an air-to-air heat pump (outdoor unit) with a compact air heater/cooler (indoor unit) ensures excellent performance and a versatile, energy-efficient climate solution.

More environmentally friendly and flexible

Thanks to the use of R32 as a refrigerant, this new generation MDX is a more environmentally friendly climate solution. The long available pipe length and the wide temperature range make the Mistral MDX versatile. Because the Mistral MDX has been specifically developed for industrial use, it is extremely suitable for heating and cooling e.g. garages, warehouses, workshops, distribution centres and showrooms.

Product Features

- Available in capacities of 24 kW (MDX 30) and 48 kW (MDX 60)
- Robust design
- Very easy to maintain
- Runs on R32, energy-efficient and more environmentally friendly
- Air-to-air heat pump
- Cooling and heating
- Large temperature range
- Indoor unit equipped with EC fan
- Suitable for hybrid setup with gas-fired or electric heaters
- Optional integrated condensate pump
- Pipe lengths up to 60 m
- Refilling not necessary up to 30 m
- Isolator switch pre-assembled on indoor unit
- Ambient temperature range indoor unit
 - Cooling: 17°C (80%) to 41°C (25%)
 - Heating: 7°C to 24°C

Hybrid-ready: flexible and cost-saving

The hybrid preparation ensures that the system works seamlessly with new or existing gas-fired air heaters. This means that the installed capacity of the Mistral MDX can remain lower, because the gas-fired units provide the required capacity in severe cold.

The Mistral MDX 30 and MDX 60 are flexible climate solutions that provide significant savings on energy costs. Contact us for the possibilities.

Prices MARK MISTRAL MDX 30/60

PRODUCT - MISTRAL MDX HEAT PUMP SYSTEM (R32)

Code nr.	Description	Price
5992702	Mistral MDX 30 (indoor- + outdoor unit, excl. condensate pump)	€ 19867
5992706	Mistral MDX 60 (indoor- + 2 pieces outdoor unit, excl. condensate pump)	€ 33754
5992712	Mistral MDX 30 (indoor- + outdoor unit, incl. condensate pump)	€ 20675
5992716	Mistral MDX 60 (indoor- + 2 pieces outdoor unit, incl. condensate pump)	€ 34562

ACCESSORIES - CONTROL

Code nr.	Description	Price
1 0629110	Pintherm Mistral	€ 726
2 0629086	Room sensor in combination with 0629110	€ 93
	Multi controller voor max. 3 pieces Mistral MDX	On demand
	Multi controller voor max. 6 pieces Mistral MDX	On demand
0631149	Isolator switch 63A in combination with the external unit(s)*	€ 110

* for the MDX 60, two isolator switches should be ordered together.

The indoor units have a pre-mounted isolator switch.

ACCESSORIES - MOUNTING

Code nr.	Description	Price
5017595	Set of wall mounting brackets (2 pieces)	€ 386
5017597	Adjustable support frame for outdoor unit Mistral MDX (2 pieces for MDX 60)	€ 1318
5016840	Support frame for Mistral MDX 30 indoor unit	€ 396
5016842	Support frame for Mistral MDX 60 indoor unit	€ 486

ACCESSORIES - ADDITIONAL SECTIONS - VERTICAL LOUVRES

Code nr.	Description	Price
5064341	Vertical louvres for MDX type 30	€ 227
5064342	Vertical louvres for MDX type 60	€ 401

The MISTRAL MDX

A pleasant indoor climate

Mark Climate Technology is happy to advise you on a pleasant indoor climate for your project. With free advice (also on site), our own service department and a wide product range, we can serve every customer tailor-made.

A white rectangular HVAC unit with a black grille, mounted on a brick wall. It is supported by a metal frame. To the left, a grey electrical control box is visible. Below the unit, there are copper pipes and a blue metal rack with yellow shelves. The wall is made of light-colored bricks.

A grey electrical control box with a warning symbol on the door, mounted on a metal frame to the left of the HVAC unit.

A blue metal rack with yellow shelves, positioned below the HVAC unit. The rack is empty and has three white labels on the top shelf.

Label on the rack shelf.
